

Worksite Lighting Explosion-Proof LED String Light

SPECIFICATIONS

12V Explosion-Proof LED String Light

RUGGED:

Made in USA, our explosion-proof led String lights are designed to tackle challenging environments such as Industrial Rentals, Refinery Maintenance, Military, and Offshore Drilling.

The robust construction of the machined aluminum housings, cast aluminum guard, toughened glass lamp globe, and abrasion resistant cord define their durability.

EXTRAORDINARILY BRIGHT:

Each lamp in our Worksite Lighting string lights generates up to 1,500 lumens each, delivering a combined total of over 7,500 lumens of clear, true-to-color light similar to natural sunlight for 5-Lamp Strings, 12,000 for 8-Lamp Strings and up to 15,000 for 10 Lamp Strings. Our lights enhance the environment of your work area, making it not only safe and visually comfortable, but easier for inspecting structural elements and finishes without distortion.

LOW-PROFILE DESIGN:

Our LED string lights are designed to seamlessly fit into diverse settings. They can be moved around and hooked to different points on your scaffold, providing a flexible and manageable configuration that can easily meet the requirements of your workspace.

SUPERIOR SAFETY FEATURES:

Our Worksite Lighting String-lights prioritize safety by functioning at cooler temperatures to accommodate maximum ratings for hazardous environments. Our lighting set carries a Class 1, Division 1 rating for Groups C and D, and Class II, Division 1 Groups F and G.

LOW VOLTAGE SAFETY:

The in-line transformer steps down your input voltage from 120V to 12V to address low voltage requirements and OSHA 1926.405 when using portable electric lighting in wet and or other conductive locations such as drums, tanks, and vessels. *220-240v to 24v is also available

12V Explosion-Proof LED String Light

*SLDWXPLED-5-12IL
*SLDWXPLED-8-12IL
*SLDWXPLED-10-12IL

SPECIFICATIONS

Product Specification Overview:

Dimensions:	Each lamp: L-16.5" Diam-5"
Voltage:	12-24V AC
Total Watts:	50-100 Watts
Single Lamp Watt:	10 watts
Lamp Life:	50,000+ Hours
Color Temp:	5600K
Globe Guard Material:	Copper-free Cast Aluminum
Globe Material:	Hardened Borosilicate Glass
Handle Material:	Rubber
Mounting:	Handheld or Hanging via Aluminum Hooks

Only trust Worksite Lighting String Lights to illuminate your workplace with the utmost safety and efficiency.
